

HUMATICS

Microlocation for People, Places, and Things

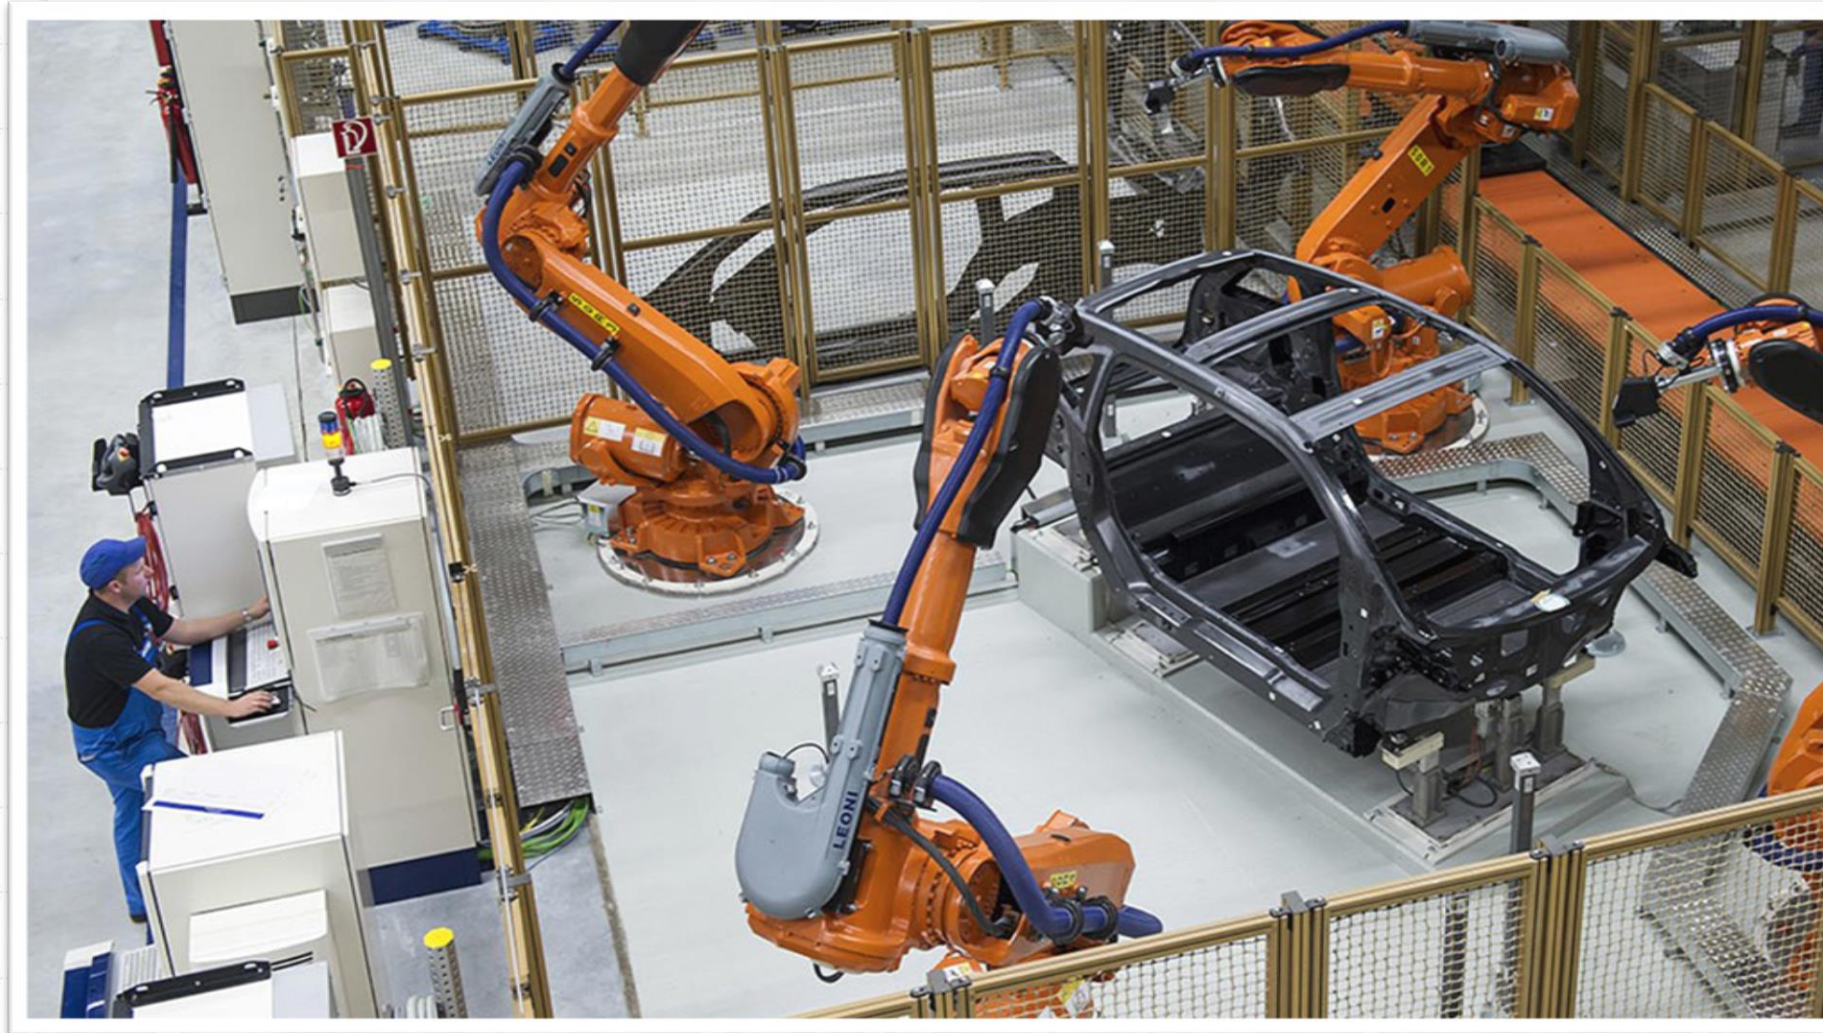

Matthew Carey

Director of Business Development

May 2017

PROBLEM:
People and robots
still don't work
together

*Wasted space,
motion, and time*

MICROLOCATION

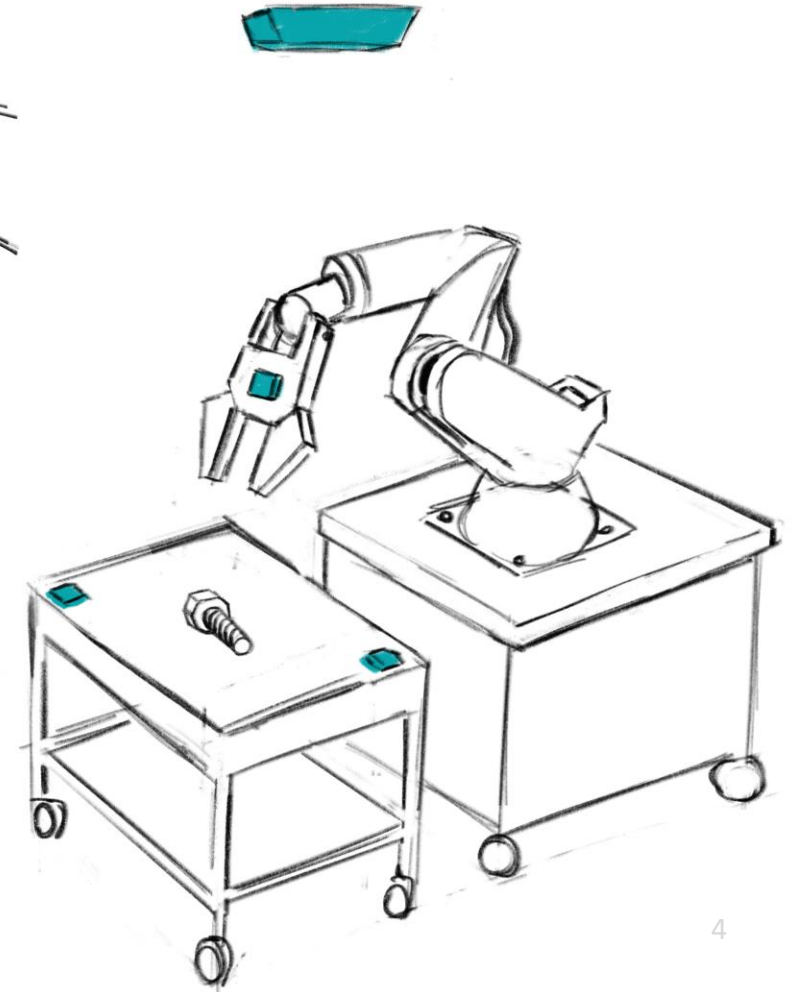

Worlds first low-cost,
high precision
tracking system and
software suite
suitable for industrial
settings

Safe, seamless collaboration through IoT

HUMATICS BRINGS SITUATED AUTONOMY

TO MANUFACTURING

Our ask

We are seeking:

Pilot partners
in major industrial
sectors
