*June 2016*

***Six years ago we told the staff in a meeting that we were not a GMV company but a data company.***

*People have been asking me how I make money with data. Even today we still don't know the answer. However, we know people can't live without data in the near future. Walmart amasses data from its sales, and we do e-commerce and logistics for data.*

*People keep asking me about GMV. But I am telling you now GMV is not our goal. **We sell stuff to collect data, which is different from Walmart....***

Julia Bornstein  
Sephora CMO/CDO

*[Now with StitchFix]*

*"When we create content for our site or emails, we think of additional ways that we can help the story along on Pinterest. We use web analytics to look at top pins, test quote layouts from brand founders, and try different product shots—we spend time learning about what works and experiment often to get it right."*

Pinterest users spend 15 times more on Sephora products than Facebook followers

**B2B** [Microsoft/\$7.5 billion]

*Social Media Platforms Are 'Bait' For Network Effects*

*The 'Virtuous Cycle' Ethos:*

*Understanding 'Network Effects'*

“Google gets smarter every time someone makes a link on the web. Google gets smarter every time someone makes a search. It gets smarter every time someone clicks on an ad. And it immediately acts on that information to improve the experience for everyone else. It’s for this reason I argue that the real heart of Web 2.0 is harnessing collective intelligence.”

## *Core Web 2.0 Design Principle*

The service 'automatically' gets better  
the more people use it
