# MISTI Global Internships

A young man and woman are looking upwards in a factory or laboratory setting. The man is in the foreground on the left, and the woman is in the background on the right. They are surrounded by industrial machinery and equipment.

- MIT students of all disciplines
- Undergraduate, graduate and grads
- Students prepared in language and culture
- Individually matched with a project in company or lab

# How it works

- MISTI selects students
- Host provides project descriptions or general internship area

- Students matched with projects
- Host identifies project and supervisor

- Student training and preparation
- MISTI handles logistics and administration

- Internship June-August
- Host provides stipend to cover living expenses and travel

Ploy Srivali, Chemical Engineering  
Internship in renewable energy at  
RWE in Germany

A young man with dark hair, wearing a grey t-shirt with the MIT logo, stands in a workshop. He is smiling and looking towards the camera. To his left is a large, silver and blue industrial robotic arm. The arm has "Pollux Automation" written on it in blue. The background shows a typical industrial setting with white walls and overhead lighting.

Alex Vivar, Computer Science and  
Engineering

Internship in machine learning at  
Pollux in Brazil

A young woman with long, dark, curly hair is sitting on a concrete ledge in front of a brick wall. She is wearing a light-colored, patterned blazer over a black top and blue jeans. The background features a brick wall and a tree with yellow autumn leaves. A blue semi-transparent box is overlaid on the left side of the image, containing white text.

Andrea Orji, Chemical  
Engineering

Internships in health sciences in  
India and South Africa

A male scientist with glasses, wearing a white lab coat and white gloves, is focused on his work in a laboratory. He is using a blue pipette to transfer liquid into a small vial. The background is filled with various pieces of laboratory equipment, including metal stands, glassware, and a fume hood, all slightly out of focus. The lighting is bright and even, typical of a modern research facility.
